

## Peterson American Corporation Mission Statement:

“The mission of Peterson American Corporation is to work with our customers to provide the best products available to the world market. Drawing on our worldwide resources, we will improve the quality and reduce the cost of our products and services through the application of practical, innovative thinking. We will maintain an equitable relationship with interested parties - our customers, our employees, our shareholders and our communities”.

## Quality Policy Objectives:

Our focus is on our customers, prospective customers and their satisfaction. By identifying and eliminating elements of risks in our quality processes and applying our core values, give Peterson distinction in the markets where we work and serve. The Peterson Corporate Culture lives in each member of the organization.

- “Discipline in everything we do.”
- “Hard work, integrity, operational and business excellence.”
- “Innovation by all.”

Through empowered leadership and committed teams, focused on continuous improvement we will shape procedures consistent with the organization’s goals, while meeting and or exceeding customer requirements.
