Re: Proposition 65 response for 22589-83B & 22097-99

Peterson American Corporation (PAC) has reviewed our products and the responses supplied by our raw material vendors. The part numbers listed above do not contain any Proposition 65 listed substances or chemicals. This information is provided without any representation or warranty, expressed or implied, regarding the accuracy or correctness.

Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted as a ballot initiative in November 1986. The proposition protects the state's drinking water sources from being contaminated with chemicals known to cause cancer, birth defects or other reproductive harm, and requires businesses to inform Californians about exposures to such chemicals.

If you have any questions concerning PAC's compliance to the Prop 65 program, please contact your Peterson representative for assistance.

Sincerely

Peterson Spring Corporate Procurement
